

FINBOW SPREADER ROLLS

investing in the future

Leading spreader roll manufacturer and service provider Finbow invested in capacity expansion in Pirkkala, Finland. New workshop area was opened for business 2 weeks ago and is dedicated for handling spool assemblies of serviced rolls. After expansion company occupies total operating space of 11 000 m².

“The expansion is helping us to serve our customers with improved efficiency and shorter delivery times”, says Heikki Meriö, Finbow workshop manager.

We welcome all our new and existing customers to visit us once traveling restrictions have been lifted.
